

**SLIPPERY ROCK UNIVERSITY HARDWARE/SOFTWARE AGREEMENT**

**Overview**

An important goal of Slippery Rock University is to keep its curriculum current with today's changing work environment. As such, it has become necessary for students to possess competency in the use of technology. To that end, you will be expected to have access to and use the hardware and software as described below.

Please note that due to the rapid rate of change in information technology, we anticipate that hardware and software competencies will be updated on a regular basis.

**Hardware and Software Standards**

Please place a ✓ in the box if your system meets the specified requirements:

- 1.2 GHz or greater (Intel Pentium or Celeron, or AMD Athlon processors)
- Windows Vista, XP or 2000
- Microsoft® Office 2007, 2000, or 97
- Microsoft® Word
- Microsoft® PowerPoint
- Microsoft® Excel (for selected courses)
- Microsoft® Access (for selected courses)
- A current anti-virus application
- 256 MB RAM or greater
- 20 GB hard drive or larger
- 56.6 kps modem, DSL, or cable modem
- 1024 x 768 or greater monitor and video card
- Sound card with speakers
- CD ROM
- Inkjet or laser printer
- Active SRU e-mail account
- Internet service provider (ISP) account (off campus)
- Microsoft® Internet Explorer version 6.0 or later

I have read the hardware/software specifications and understand that if I choose to use equipment and/or software other than that specified, Slippery Rock University is not obligated to provide technical or related support. Slippery Rock University reserves the right to change the hardware/software requirements as technical standards dictate.
